EXPERIENCE

Sr. VFX Compositor

MPC

06/2022 - 02/2025 Bangalore, India

Highly motivated by a strong work ethic and a passion for delivering excellence in every project I undertake. With a problem-solving mindset, I approach challenges as opportunities to innovate and refine my craft. My ability to seamlessly integrate various elements into a cohesive and visually stunning composition allows me to create immersive experiences.

Additionally, my expertise in **Deep Compositing** enables me to develop intricate visual effects, adding depth, realism, and complexity to scenes that captivate audiences.

VFX Compositor

MPC

05/2021 - 07/2022 Bangalore, India

- Seamless Integration of Elements:** Combine live-action footage, CG renders, and various visual elements to create photorealistic and immersive scenes.
- Advanced Deep Compositing:** Utilize deep image techniques to enhance depth, lighting interactions, and integration of complex effects for high-end VFX shots.
- Color Grading & Look Development:** Match colors, adjust lighting, and refine visual aesthetics to ensure seamless continuity across shots.
- Problem-Solving & Optimization:** Identify and resolve compositing challenges, improve workflows, and optimize render efficiency while maintaining artistic integrity.

Creative Designer

Webtales

08/2020 - 11/2020 Jamshedpur, India

During my tenure as a Creative Designer at "Webtales," I played a pivotal role in crafting captivating visual narratives. With a keen understanding of design principles and an eye for aesthetics, I skillfully translated ideas into compelling graphics that conveyed the essence of our brand.

EXPERTISE

Key Skills

- Create rotoscoping masks and use paint and compositing techniques in Nuke to craft shapes, clean plates, and remove rigs or other visual artifacts.
- Work on a range of shots, from simple to complex, handling tasks such as pre-comps, lineups, de grain, grain restoration, 2D tracking, 2D effects, keying extractions, integration, and color correction.
- Address and resolve visual, artistic, and technical challenges, escalating complex issues to relevant departments (e.g., modeling, texture, 3D lighting) as needed.
- Ensure consistency in the final composition of visual effects shots.
- Balance creative and technical aspects of VFX shots, integrating 2D and 3D elements to achieve photorealistic results that meet quality standards.

SUMMARY

I am a seasoned Compositor with a passion for bringing visual stories to life. With a strong foundation in "Set Extensions," "Keying," and "Full CG Comping,"

Driven by a strong work ethic, I am known for my dedication and relentless pursuit of excellence. As a fervent problem solver, I embrace challenges and am committed to finding innovative solutions that elevate the final product. My ability to collaborate effectively as a team player ensures a harmonious creative process, contributing to the success of each project

KEY ACHIEVEMENTS

Spotlight Award

The **Spotlight Award** in my company is a recognition given to employees who go above and beyond in their work. It highlights outstanding contributions, whether through problem-solving, innovation, leadership, or dedication to delivering high-quality results.
